Report to accompany the estimate for deepening the well in the Tahsildar's quarters at Kollegal.

Item 4- Page 70- capital/ revenue

Amount of Estimate Rs.75.

This estimate has been prepared on requisition letter dated 19th July 1925 from the Tahsildar, Kollegal complaining about the water scarcity in his well and it provides for deepening the well another 7'-6". At present there is no water in the well. The adjoining well in the compound of the Range Officer's quarters whose ground level is more or less the same at a distance of 200' i/s 35' deep from the top of parapet -- wall with 1 depth of water. Owing to the absence of rains all the surrounding tanks and ponds are dried up and water -- scarcity is much felt. Hence deepening the well is necessary and this is the best season for doing the work as the well is dried up. Early sanction to the estimate with allotment of funds is earnest solicited.
